

**STACKDOOR**

**Stackdoor is the safest security grille**

**Side view Stackdoor**

By showing the dimensions of a traditional rolling grille and Stackdoor with an average height of 3000 mm, side by side, the reduction of size is apparent.

Stackdoor sets the norm in security grilles. Through continuously innovation Stackdoor is the highest certified security grille recognized by insurers for facade and entrance. With the latest RC resistance class certificate (RC2/RC3) Stackdoor surpasses all other open security grilles. Hence Stackdoor security grille is applicable in circumstances where security level 4 and 5 is required.

**What makes the patented Stackdoor security grille unique?**

✓ **Heavy break-in resistancy**

- RC2/RC3 certified (EN 1627) (the only one in the market)
